Professional Research,
Hamilton Health Sciences

Blending Research into Practice for Clinical Health Professionals

November 1, 2016 • 12:00-1:00 pm

Hamilton General Hospital, Theatre Auditorium

Objective:

To raise awareness about the support and resources available to advance research in front-line clinical health professionals.

Target Audience:

Open to all health disciplines (non-physician) with an interest in research. Novice and experienced researchers welcome.

Topics that will be covered include:

- ▶ HHS funding opportunities available to clinical health professionals
- ▶ Importance of Mentorship
- ▶ I have an idea for research, where do I start?
